

BIENNIAL INDEX

Volumes 3 and 4, September 1965 — May 1967

AUTHOR FILE

Ainsworth, Walter. *An Electrostatic Charge Detector*. December 65:22
 Allen, Jesse. (Science and Teachers) February 67:11
 Armstrong, Patricia. *Shoebox Laboratories*. March 67:21
 Anastasi, Anthony J. *Discovery Is Fun*. October 66:14
 Austin, Avel. (Science and Teachers) September 66:4
 Baldini, Rudolph A. *Pill Bottle Electroscope*. February 67:22
 Barrett, Raymond E. *Field Trip Tips*. October 65:19
 Bartosik, Henry J. (Letters) September 66:5
 Batcheller, Oliver A. *A Classroom Greenhouse*. September 65:14
 Behm, Walter. *Cold Weather Science*. November 65:15; (Science and Teachers) February 66:6; December 66:3; May 67:4
 Bennett, Lloyd M. *Heat*. December 66:16
 Bennett, William Y. *Green Plants and Rainbows*. April 67:12
 Berson, Minnie Perrin and Piltz, Albert. *Head Start to Discovery*. December 65:6
 Billings, Gilbert. (Science and Teachers) February 66:6
 Blackwood, Paul E. *Characteristics of a Good Science Program*. October 65:24
 Blanc, Sam S. *Creative Teaching for the Process Skills*. May 67:6
 Blanchard, Constance G. (Science and Teachers) April 66:4; (Science and Teachers) February 67:11
 Bloom, Samuel W. and Smith, Paul E. *Science Curriculum Today and Tomorrow*. November 65:16
 Blough, Glenn O. (Editorial) May 66:5
 Boiarsky, Carolyn. *Appalachia Educational Laboratory*. April 67:11
 Bondurant, Jr., R. Lynn. *Star Chart for an Overhead Projector*. April 66:14
 Boro, Eugene. (Science and Teachers) April 67:4
 Bradley, R. C. and Earp, N. Wesley. *Rewriting Science Materials for Elementary Students*. March 66:22
 Brancato, Alfred V. *Blending Units for a Science Fair*. February 66:12
 Brehm, Shirley A. *Investigations Afield*. September 66:9

Brennan, Matthew J. *Birds on the Wing* (Science Out of Doors). September 65:16
 Brown, V. K. *Archimedes' Principle*. October 65:22
 Brown, Walter R. *Departmentalized Science?* October 66:7
 Burris, John H. and Sparling, Joseph J. (Science and Teachers) September 66:4
 Carleton, Robert H. (Editorial) October 65:4
 Carter, Neal W. *Science Experience Center*. February 67:13
 Casey, James E. and McCahey, George F. *Take a Deep Breath*. November 65:12
 Cline, Jessica. *The Why of It*. November 65:14
 Cordier, Mary H. *Let's Take a Field Trip to the Woods*. September 66:11
 Cox, James W. *Algae—A Hidden Teaching Resource*. May 66:24
 Crowe, Marian. *Insect Traps*. May 67:14
 Crosson, John F. (Editorial) March 66:2
 Cunningham, Thomas J. (Science and Teachers) September 66:4
 Davis, Jr., Joseph E. *Ice Calorimetry in the Upper Elementary Grades*. December 66:13
 Deason, Hilary. *Evaluating Science Books for Children*. November 65:9; *Recent Books about Monarch Butterflies*. May 66:20
 Dennis, Frank L. (Letters) December 65:3
 DeRose, James V. *What Does It Mean to Measure?* April 67:35
 Dewey, Amy S. and LaSalle, Donald P. *Candle Making with the Primaries*. October 66:28
 Disantis, Paul A. *The Living Laboratory*. September 66:22
 Dorf, Erling. *Are the Earth's Climates Changing?* March 67:16
 Earp, N. Wesley and Bradley, R. C. *Rewriting Science Materials for Elementary Students*. March 66:22
 Eiss, Albert. *The Platform Balance*. March 66:6; (Editorial) April 67:7
 Farkas, Eugene M. (Letters) May 67:3
 Feiro, Arthur D. *Biology Flying Squads*. November 66:27
 Ferslev, Helen L. (Editorial) September 65:3

Field, John P. (Letters) September 66:5
 Fitch, Thomas. (Science and Teachers). April 67:4
 Forrester, Frank (Letters) May 67:3
 Francis, Sharon F. (Letters) February 67:7
 Freeman, Jane C. (Editorial) November 66:5
 Frohs, Doris. (Letters) May 67:3
 Fry, Keith. *What Is Water?* November 66:13
 Gardner, Robert. *Sink or Float? Why?* December 65:17
 Gaver, Mary V. (Editorial) November 65:4
 Haley, Elizabeth. *A New Pet for the Classroom*. November 66:20
 Hansen, John W., Riggsby, Ernest D. and Riggsby, Dutchie S. *A Biochemical Fuel Cell*. April 66:19
 Harbeck, Richard M., and Mary Blatt. *Investigating Chemistry*. April 66:7
 Hausman, Howard J. *The Cooperative College-School Science Program of the National Science Foundation*. March 67:26
 Heffernan, Helen. *Concept Development in Science*. September 66:25
 Heldman, Lawrence J. *Planning a Science Facility*. February 67:17
 Hill, Katherine E. *Science for Children—Why?* May 66:11
 Hinmon, Dean. (Letters) December 65:4; *Problem Solving—Part I*. April 66:22; *Problem Solving—Part II*. May 66:16
 Hobbs, Jr., Walter R. *A Saltwater Aquarium*. May 66:9
 Iona, Mario. *Whoops*. March 66:11; (Letter) February 67:7
 Johns, Kenneth W. *Tin Can Barometer Revisited*. October 65:14
 Johnson, Mrs. Lyndon B. (Editorial) November 66: Cover II
 Kindler, Leonard I. *Experiment in Color Vision*. December 65:19
 Kinney, Jean and Cle. *What Does the Tide Do?* April 67:31
 Kirsch, Bernard G. *Elementary Science in Southern California*. May 67:18
 Kirk, Irving D. (Letters) December 65:3
 Kleppinger, Edward. (Letters) April 66:3
 Koblitz, Minnie W. *Do Caterpillars Eat in the Dark?* December 66:20

- Kurtz, Jr., Edwin B. *Interdependence of Living Things* (Science Seminar). September 66:29
- Kwasikpui, Doris B. *Night Field Trips*. September 66:21
- LaCava, George. *An Experiment via Tape*. October 65:10
- Lamberton, Berenice. *Heavens Above*. October 65:21; February 66:15; May 66:13
- Lansdown, Brenda. *Discovery for the Culturally Deprived*. September 65:20
- LaSalle, Donald P. and Dewey, Amy S. *Candle Making with the Primaries*. October 66:28
- Larson, Gloria. (Letters) December 65:4
- Leipper, Dale F. *Oceanography* (Science Seminar). November 66:38
- Lemmon, Robert A. *Quantitative Descriptions in Science*. December 65:12
- Leonard, Edward H. *A Modified Meter Stick*. March 66:7
- Lerner, Marjorie S. *Inservice Science Activities*. November 66:21
- Lipson, Joseph I. *An Individualized Science Laboratory*. December 66:8
- Lokke, Donald H. *Geological Treasure Map*. March 67:15
- Lokke, Donald H. and Titus, Robert L. *Cloud Transparencies in Color*. April 66:12
- Lowery, Lawrence F. and Lundstrom, Donald. *Graphic Presentation of Plant Growth*. April 67:15
- Lowery, Lawrence F. *Leaf Study—A Process Approach*. September 66:18
- Lown, Donald E. (Science and Teachers) March 67:4
- Lundstrom, Donald and Lowery, Lawrence F. *Graphic Presentation of Plant Growth*. April 67:15
- McCahey, George F. and Casey, James E. *Take a Deep Breath*. November 65:12
- McKeon, Joseph E. *A Process Lesson in Density*. December 66:21
- MacDonald, John (Letters) May 67:3
- March, Sylvester G. *Windowsill Greenhouse*. November 66:15
- Marcuccio, Phyllis (Editorial) February 66:4
- Mason, Dorothy (Letters) December 65:4; *Kindergarten Rock Study*. February 66:34
- Menzel, Jr., E. Wesley. *Measurement Experiments*. September 65:10
- Merrick, Paul D. *Fly Culturing*. May 67:8
- Milgrom, Harry. *A Guide to Science Handbook Preparation*. April 66:11; *Action and Reaction*. October 66:26; (Letters) February 67:7
- Molyneaux, Marjorie B. *Choosing Elementary Science Equipment*. February 67:20
- Mullins, Fred D. *Baby Turtles*. March 66:14
- Munson, Howard R. *Sounds in the Sixth Grade*. December 65:10
- Murphy, D. G. *Introducing Nematodes*. November 65:18
- Ortleb, Edward P. *Ecology in the Elementary Classroom*. February 66:29
- Palmer, Lyle and Weirick, Robert. *Outdoor Education Program*. September 66:16
- Paskalides, Thomas, et al. *Outdoor Education School*. May 67:11
- Patterson, Robert. *Animal Movement*. September 65:11
- Patterson, Robert and Puckett, Myron. *An Inquiry Device*. March 66:10
- Pengelly, Russell (Science and Teachers) April 66:4
- Persky, Barry Stephen. *Miniature Terrariums*. December 65:24
- Piltz, Albert and Berson, Minnie Perrin. *Head Start to Discovery*. December 65:6
- Plants, Robert W. *An Experiment Never Fails*. May 66:22
- Ploutz, Paul F. *Trends in the Elementary Science Curriculum*. February 66:39
- Puckett, Myron and Patterson, Robert. *An Inquiry Device*. March 66:10
- Rains, Sylvester L. *Can You Prove It?* March 66:20
- Rainsbury, Ron. *Touch and Go*. May 66:14
- Reese, Willard F. *Off the Record*. December 65:11
- Renner, John W. *A Case for Inquiry*. March 67:30
- Riggsby, Ernest D., Dutchie, S. and Hansen, John W. *A Biochemical Fuel Cell*. April 66:19
- Ring, Art. *A Cardboard Museum*. March 66:15
- Ritsema, Louise. *The Principal's Role in Supervising Field Trips*. September 66:15
- Robarge, Thomas J. *Science Equipment Library*. February 67:27
- Robertson, Jr., R. S. *Geology Trip Tips*. March 67:14
- Robinson, Anthony (Science and Teachers) October 66:4
- Rockcastle, Verne N. *Upper Winds for Upper Grades*. October 66:10
- Rosengren, John H. *Is that Pussy Willow a Tom?* March 66:12; *Stump Your Class*. March 67:24
- Rosner, Joan. *A New Look at Science Fairs*. February 66:8
- Ruchlis, Hy. *Color Experiments*. December 65:14; *Machines Do Make Work Easier*. November 66:24
- Rundle, Arthur G. *Organization—Key to a Successful Science Fair*. February 66:13
- Sauls, Charles W. and Shaw, Stan. *Insect Collecting*. April 67:28
- Schiffman, Maurice K. *Science and My Father's Occupation*. May 66:15
- Schneider, Herman. *Hey Teacher, You're Wrong!* October 66:12; (Science and Teachers) March 67:4
- Schroeder, Chrys. *Equipment a la Cart*. November 65:11
- Schwartz, Julius (Science and Teachers) February 66:6
- Sears, Paul B. (Editorial) September 66:2
- Shannon, James J. *Ant Antics*. February 66:36
- Shaw, Darla. *Kitchen Chemistry*. February 67:31
- Shaw, Stan and Sauls, Charles W. *Insect Collecting*. April 67:28
- Shive, J. N. *Elementary Concepts of Waves*. September 65:5
- Shugrue, Sylvia K. *Science Can Be Beautiful*. November 66:6
- Silverstein, Samuel. *Bringing the Outside In*. December 65:21
- Smith, Edward V. *Adjustable Greenhouse*. April 67:24
- Smith, Paul E. and Bloom, Samuel W. *Science Curriculum Today and Tomorrow*. November 65:16
- Snyder, John L. *Pretty Enough to Pick Up*. March 67:8
- Spar, Jerome. *Meteorology*. (Science Seminar). October 66:38
- Sparling, Joseph J. and Burris, John H. (Science and Teachers) September 66:4
- Stavely, S. Frances. *Conservation Study*. September 65:12
- Stiles, Grace Ellen. *Models in the Classroom*. October 66:20
- Stobbe, Emily. *Tagging the Butterfly*. May 66:18
- Strassenburg, Arnold A. *A Matter-Energy Cycle* (Science Seminar). December 66:29
- Strasser, Ben. *Posing Productive Questions*. April 67:9
- Streng, Evelyn. *Science Fairs? Why? Who?* February 66:11
- Subarsky, Zachariah. *Communication—A Goal of Elementary Science Teaching*. March 66:18; *First Grade Chemistry*. December 66:5; (Science and Teachers) May 67:4
- Swan, Malcolm D. *How Long Is "100 Feet"?* December 66:17
- Swezey, Kenneth M. *Classic Experiments in Modern Dress*. October 65:6
- Swingler, Richard C. *Educational Value of Classroom Pets*. November 65:5
- Taba, Hilda. *Strategy for Learning*. September 65:21
- Titus, Robert L. and Lokke, Donald H. *Cloud Transparencies in Color*. April 66:12
- Tredway, Dan. *The Specialist—An Untapped Community Resource*. November 65:20
- Vannan, Donald A. (Science and Teachers) October 66:4
- Van Velkinburgh, Robert E. *Atom Smashers and Sir Isaac Newton*. February 67:33
- Walker, Ormiston H. *A New Look at Hero's Engine*. October 65:12; *A Simple Cloud-Direction Indicator (Nephoscope)*. October 66:25; (Science and Teachers) December 66:3; *Science Tables*. April 67:25
- Walldroff, Bessie. *Supermarket Science*. September 66:23
- Waters, Barbara S. *An Ocean in Your Classroom*. May 66:6; (Letters) September 66:5
- Weaver, Allen D. *Watch Your Language*. April 66:16; (Letters) February 67:7
- Weirick, Robert and Palmer, Lyle. *Outdoor Education Program*. September 66:16
- Werblo, Dorothy Funk (Science and Teachers) May 67:4
- Wetherill, John P. (Science and Teachers) October 66:4
- Wickens, Elaine. *Teaching about Life and Death*. October 66:23
- Wilkie, Fern (Letters) February 67:7
- Wilson, Irma Campbell. *Biophysics at the Elementary Level*. September 65:18
- Wright, Jo Anne (Letters) May 67:4
- Wulfson, Stephen. (Science and Teachers) February 67:11; *Rubber Molds*. March 67:20
- Yochelson, Ellis L. *Raising the Dead*. March 67:10
- Youngpeter, John M. (Science and Teachers) March 67:4

SUBJECT INDEX

Biology

- Adjustable Greenhouse.* Edward V. Smith. April 67:24
Algae—A Hidden Teaching Resource. James W. Cox. May 66:24
Animal Movement. Robert Patterson. September 65:11
Animal Secrets. October 66:18
Ant Antics. James J. Shannon. February 66:36
Baby Turtles. Fred D. Mullins. March 66:14
Biology Flying Squads. Arthur D. Feiro. November 66:27
Biophysics at the Elementary Level. Irma Campbell Wilson. September 65:18
Birds on the Wing (Science Out of Doors). Matthew J. Brennan. September 65:16
Bringing the Outside In. Samuel Silverstein. December 65:21
Classroom Greenhouse. A. Oliver A. Batcheller. September 65:14
Conservation Study. S. Frances Stavely. September 65:12
Conservation Self-Test. April 67:19
Do Caterpillars Eat in the Dark? Minnie W. Koblit. December 66:20
Ecology in the Elementary Classroom. Edward P. Ortleb. February 66:29
Educational Value of Classroom Pets. Richard C. Swingler. November 65:5
Fly Culturing. Paul D. Merrick. May 67:8
Graphic Presentation of Plant Growth. Lawrence F. Lowery and Donald Lundstrom. April 67:15
Green Plants and Rainbows. William Y. Bennett. April 67:12
Insect Collecting. Stan Shaw and Charles W. Sauls. April 67:28
Insect Traps. Marian Crowe. May 67:14
Interdependence of Living Things (Science Seminar). Edwin B. Kurtz, Jr. September 66:29
Introducing Nematodes. D. G. Murphy. November 65:18
Investigations Afield. Shirley A. Brehm. September 66:9
Is that Pussy Willow a Tom? John H. Rosengren. March 66:12
Leaf Study—A Process Approach. Lawrence F. Lowery. September 66:18
Let's Take a Field Trip to the Woods. Mary H. Cordier. September 66:11
Living Laboratory. The Paul A. Disantis. September 66:22
Miniature Terrariums. Barry Stephen Persky. December 65:24
New Pet for the Classroom. A. Elizabeth Haley. November 66:20
Ocean in Your Classroom. An. Barbara S. Waters. May 66:6
Outdoor Education Program. Lyle Palmer and Robert Weirick. September 66:16
Outdoor Education School, et al. Thomas Paskalides. May 67:11
Recent Books about Monarch Butterflies. Hilary Deason. May 66:20
Saltwater Aquarium. A. Walter R. Hobbs, Jr. May 66:9
Science Can Be Beautiful. Sylvia K. Shugrue. November 66:6
Stump Your Class. John H. Rosengren. March 67:24

- Supermarket Science.* Bessie Walldroff. September 66:23
Tagging the Butterfly. Emily Stobbe. May 66:18
Take a Deep Breath. James E. Casey and George F. McCahey. November 65:12
Teaching about Life and Death. Elaine Wickens. October 66:23
The Science Teacher Presents Conservation. April 67:18
When Trees Go to School. November 66:18
Windowsill Greenhouse. Sylvester G. March. November 66:15
World in a Bowl. April 67:26

Chemistry

- Biochemical Fuel Cell.* A. Dutchie S. Riggsby, John W. Hansen, and Ernest D. Riggsby. April 66:19
Can You Prove It? Sylvester L. Rains. March 66:20
Color Experiments. Hy Ruchlis. December 65:14
Experiment Never Fails! An. Robert W. Plants. May 66:22
First Grade Chemistry. Zachariah Subarsky. December 66:5
Investigating Chemistry. Richard M. and Mary Blatt Harbeck. April 66:7
Kitchen Chemistry. Darla Shaw. February 67:31
Matter-Energy Cycle. A. (Science Seminar). Arnold A. Strassenburg. December 66:29
What Is Water? Keith Fry. November 66:13

Earth Science

(Meteorology, Geology, Oceanography, Astronomy)

- Are the Earth's Climates Changing?* Erling Dorf. March 67:16
Cardboard Museum. A. Art Ring. March 66:15
Cloud Transparencies in Color. Robert L. Titus and Donald H. Lokke. April 66:12
Cold Weather Science. Walter Behm. November 65:15
Geological Treasure Map. Donald H. Lokke. March 67:15
Geology Trip Tips. R. S. Robertson, Jr. March 67:14
Heavens Above. Berenice Lamberton. October 65:21; February 66:15; May 66:13
Kindergarten Rock Study. Dorothy Mason. February 66:34
Meteorology (Science Seminar). Jerome Spar. October 66:38
Models in the Classroom. Grace Ellen Stiles. October 66:20
Ocean in Your Classroom. An. Barbara S. Waters. May 66:6
Oceanography (Science Seminar). Dale F. Leipper. November 66:38
Pretty Enough to Pick Up. John L. Snyder. March 67:8
Raising the Dead. Ellis L. Yochelson. March 67:10
Rubber Molds. Stephen Wulfson. March 67:20
Saltwater Aquarium. A. Walter R. Hobbs, Jr. May 66:9
Shoeblox Laboratories. Patricia Armstrong. March 67:21
Simple Cloud-Direction Indicator (Nephoscope). A. Ormiston H. Walker. October 66:25

- Star Chart for an Overhead Projector.* R. Lynn Bondurant, Jr. April 66:14
Touch and Go! Ron Rainsbury. May 66:14
Upper Winds for Upper Grades. Verne N. Rockcastle. October 66:10
What Does the Tide Do? Jean and Cle Kinney. April 67:31

NSTA Activities

- Abstracts.* October 65:2
Achievement Awards. October 66:2
Affiliate Receives Membership Plaque. February 66:2
AAAS Annual Meeting. November 65:2; November 66:2
Best of S&C. November 66:2
Committee Established. September 65:2
Contributed Papers. May 66:2
CESI Report. September 65:25; November 65:24; February 66:38; May 66:21; March 67:2
"How To" Series. April 66:2
Linus Pauling to Address NSTA Convention. December 65:2
Manuscripts Are Wanted for Review. October 65:2; April 66:2; November 66:2
Merit Awards to be Given. September 65:2
NSTA at NEA. April 67:2; May 67:2
NSTA Convention Report. November 65:2; December 65:23; February 66:32; September 66:3; November 66:30; December 66:24; February 67:38; May 67:16
NSTA Elections. February 66:2; May 66:2; February 67:2; April 67:2
NSTA Regional Conferences. September 66:3; October 66:30; December 66:2; March 67:2
NSTA Revised Publications. May 66:2; December 66:2; February 67:2; March 67:2
Saturday Seminars. October 66:2; March 67:29
S&C Advisory Board Members. September 66:3
S&C Distribution Reminder. September 65:2; December 65:2; April 66:2
S&C Editor Assumes New Post. September 65:2
S&C on Microfilm. December 65:2
S&C Readership Survey. November 65:2
S&C Volume Available. September 66:3
Science Message. November 66:2
Science Seminars. October 66:2
The Science Teacher Presents Conservation. April 67:18
Vista Title Published. December 65:2

Physics

- Action and Reaction.* Harry Milgrom. October 66:26
After-Images. February 66:16
Archimedes' Principle. V. K. Brown. October 65:22
Atom Smashers and Sir Isaac Newton. Robert E. Van Velkinburgh. February 67:33
Biophysics at the Elementary Level. Irma Campbell Wilson. September 65:18
Classical Experiments in Modern Dress. Kenneth M. Swezey. October 65:6
Color Experiments. Hy Ruchlis. December 65:14
Creative Teaching for the Process Skills. Sam S. Blanc. May 67:6

Discovery Is Fun. Anthony J. Anastasi. October 66:14
Discovery for the Culturally Deprived. Brenda Lansdown. September 65:20
Electrostatic Charge Detector. An. Walter Ainsworth. December 65:22
Elementary Concepts of Waves. J. N. Shive. September 65:5
Experiment in Color Vision. An. Leonard I. Kindler. December 65:19
Heat. Lloyd M. Bennett. December 66:16
Hey Teacher, You're Wrong! Herman Schneider. October 66:12
Ice Calorimetry in the Upper Elementary Grades. Joseph E. Davis, Jr. December 66:13
Individualized Science Laboratory. An. Joseph I. Lipson. December 66:8
Inquiry Device. An. Robert Patterson and Myron Puckett. March 66:10
Machines Do Make Work Easier. Hy Ruchlis. November 66:24
New Look at Hero's Engine. A. Ormiston H. Walker. October 65:12
Off the Record. Willard F. Reese. December 65:11
Pill Bottle Electroscope. Rudolph A. Baldini. February 67:22
Process Lesson in Density. A. Joseph E. McKeon. December 66:21
Sink or Float? Why? Robert Gardner. December 65:17
Sounds in the Sixth Grade. Howard R. Munson. December 65:10
Tin Can Barometer Revisited. Kenneth W. Johns. October 65:14
Watch Your Language! Allen D. Weaver. April 66:16
What Is Water? Keith Fry. November 66:13

Programs, Facilities, and Resources

Animal Secrets. October 66:18
Appalachia Educational Laboratory. Carolyn Boiarsky. April 67:11
Bibliographies of Free and Inexpensive Aids. May 67:24
Biology Flying Squads. Arthur D. Feiro. November 66:27
Blending Units for a Science Fair. Alfred V. Brancato. February 66:12
Candle Making with the Primaries. Amy S. Dewey and Donald P. LaSalle. October 66:28
Characteristics of a Good Science Program. Paul E. Blackwood. October 65:24
Choosing Elementary Science Equipment. Marjorie B. Molyneaux. February 67:20
Cooperative College-School Science Program of the National Science Foundation. The. Howard J. Hausman. March 67:26
Departmentalized Science? Walter R. Brown. October 66:7
Elementary Science Equipment Producers. February 67:16
Elementary Science in Southern California. Bernard G. Kirsch. May 67:18
Equipment a la Cart. Chrys Schroeder. November 65:11
Evaluating Science Books for Children. Hilary Deason. November 65:9
Experiment via Tape. An. George LaCava. October 65:10
Field Trip Tips. Raymond E. Barrett. October 65:19

Guide to Science Handbook Preparation. A. Harry Milgrom. April 66:11
Head Start to Discovery. Albert Piltz and Minnie Perrin Berson. December 65:6
Inservice Science Activities. Marjorie S. Lerner. November 66:21
Investigations Afield. Shirley A. Brehm. September 66:9
Let's Take a Field Trip to the Woods. Mary H. Cordier. September 66:11
Letters. December 65:3; April 66:3; September 66:5; February 67:7; May 67:3
Living Laboratory. The. Paul A. Disantis. September 66:22
New Look at Science Fairs. A. Joan Rosner. February 66:8
NSF Summer Institutes. February 66:41
Night Field Trips. Doris B. Kwasikpui. September 66:21
Organization—Key to a Successful Science Fair. Arthur G. Rundle. February 66:13
Outdoor Education Program. Lyle Palmer and Robert Weirick. September 66:16
Planning a Science Facility. Lawrence J. Heldman. February 67:17
Platform Balance. The. Albert Eiss. March 66:6
Principal's Role in Supervising Field Trips. The. Louise Ritsema. September 66:15
Science and Teachers. February 66:6; (W. Behm, G. Billings, J. Schwartz); April 66:4 (C. Blanchard, R. Pengelly); September 66:4 (A. Austin, J. Burris, T. Cunningham, J. Sparling); October 66:4 (A. Robinson, D. Vannan, J. Wetherill); December 66:3 (W. Behm, O. Walker); February 67:11 (J. Allen, C. Blanchard, S. Wulfson); March 67:4 (D. Lown, H. Schneider, J. Youngpeter); April 67:4 (E. Boro, T. Fitch); May 67:4 (W. Behm, Z. Subarsky, D. Werblo).
Science Equipment Library. Thomas J. Robarge. February 67:27
Science Experience Center. Neal W. Carter. February 67:13
Science Fairs? Why? Who? Evelyn Streng. February 66:11
Science Tables. Ormiston H. Walker. April 67:25
Science Teacher Presents Conservation. The. April 67:18
Specialist—An Untapped Community Resource. The. Dan Tredway. November 65:20

Science Education (Teaching Methods and Philosophy)

Candle Making with the Primaries. Amy S. Dewey and Donald P. LaSalle. October 66:28
Can You Prove It? Sylvester L. Rains. March 66:20
Case for Inquiry. A. John W. Renner. March 67:30
Characteristics of a Good Science Program. Paul E. Blackwood. October 65:24
Communication—A Goal of Elementary Science Teaching. Zachariah Subarsky. March 66:18
Concept Development in Science. Helen Heffernan. September 66:25
COPEs. May 67:20
Departmentalized Science? Walter R. Brown. October 66:7
Discovery for the Culturally Deprived. Brenda Lansdown. September 65:20

Editorials. Glenn O. Blough. May 66:5; Robert H. Carleton. October 65:4; John F. Crosson. March 66:2; Albert F. Eiss. April 67:7; Helen L. Ferslev. September 65:3; Jane C. Freeman. November 66:5; Mary V. Gaver. November 65:4; Phyllis R. Marcuccio. February 66:4; Paul B. Sears. September 66:2
Elementary Concepts of Waves. J. N. Shive. September 65:5
Evaluating Science Books for Children. Hilary Deason. November 65:9
Experiment Never Fails! An. Robert W. Plants. May 66:22
Field Trip Tips. Raymond E. Barrett. October 65:19
Guide to Science Handbook Preparation. A. Harry Milgrom. April 66:11
Head Start to Discovery. Albert Piltz and Minnie Perrin Berson. December 65:6
Hey Teacher, You're Wrong. Herman Schneider. October 66:12
Ice Calorimetry in the Upper Elementary Grades. Joseph E. Davis, Jr. December 66:13
Individualized Science Laboratory. An. Joseph I. Lipson. December 66:8
Inquiry Device. An. Robert Patterson and Myron Puckett. March 66:10
Machines Do Make Work Easier. Hy Ruchlis. November 66:24
Night Field Trips. Doris B. Kwasikpui. September 66:21
Posing Productive Questions. Ben Strasser. April 67:9
Principal's Role in Supervising Field Trips. The. Louise Ritsema. September 66:15
Problem Solving—Part I. Dean E. Hinmon. April 66:22; *Part II.* May 66:16
Process Lesson in Density. A. Joseph E. McKeon. December 66:21
Rewriting Science Materials for Elementary Students. R. C. Bradley and N. Wesley Earp. March 66:22
Science and My Father's Occupation. Maurice K. Schiffman. May 66:15
Science Curriculum Today and Tomorrow. Samuel W. Bloom and Paul E. Smith. November 65:16
Science for Children—Why? Katherine E. Hill. May 66:11
Sink or Float? Why? Robert Gardner. December 65:17
Strategy for Learning. Hilda Taba. September 65:21
Teaching about Life and Death. Elaine Wickens. October 66:23
Trends in the Elementary Science Curriculum. Paul F. Ploutz. February 66:39
Watch Your Language! Allen D. Weaver. April 66:16
Why of It. The. Jessica Cline. November 65:14

Science and Mathematics

How Long Is "100 Feet"? Malcolm D. Swan. December 66:17
Measurement Experiments. E. Wesley Menzel, Jr. September 65:10
Modified Meter Stick. A. Edward H. Leonard. March 66:7
Platform Balance. The. Albert Eiss. March 66:6
Quantitative Descriptions in Science. Robert A. Lemmon. December 65:12
Whoops. Mario Iona. March 66:11
What Does It Mean To Measure? James V. DeRose. April 67:35
